

From the middle of the Edo period, there has been the spirit of “HAGAKURE(葉隠)” in Saga. It’s the teaching of basic BUSHIDO(the samurai spirit) by Tsunetomo Yamamoto who was a samurai in Saga. It says that what is important are making an effort, looking at yourself, loving your family, being kind and so on.

Keeping this spirit in our mind, we are heading for the good exchanging space for local people and travelers from all over the world.

About us
We are the first dormitory-type guesthouse in Saga since April 2017.
It was originally private house and we changed it into our guesthouse.
You can feel warmth as like you are in someone’s house.
Please enjoy your stay!
